CORRECTION   **Open Access**

Correction: Prediction of the SF-6D utility score from lung cancer FACT-L: a mapping study in China

Qing Yang[1*], Long Lin Jiang[1], Yin Feng Li[1] and Deyu Huang[2]

The original article contains minor text errors in the Modelling methods and performance sub-section of the Methods sections.

The following sentences should each state 'FACT-L' in place of each instance of 'FACT H&N':

Model 1: FACT-H&N total score.
Model 2: FACT-H&N total score + the square term of the FACT-H&N total score.
Model 3: Scores for each domain of FACT-H&N.
Model 4: Scores for each domain of FACT-H&N + the square term of the scores for each domain of FACT-H&N.
